| Watson, George F. | 491 |
| Wischnitzer, S. | 239 |
| Zorzoli, Anita | 129 |

## Subject Index, Vol. XXX, 1966

| | Page |
|---|---|
| Acceleration of tumor growth rate | 453 |
| Achondroplasia | 393 |
| Adrenal, | |
| effect of hypophysectomy on | 389 |
| weight alterations during audiovisual stress | 91 |
| Alkaline phosphatase in rat liver | 177-183 |
| *Anolis carolinensis* | 10 |
| Avian embryos, computed weights at various ages | 269 |
| Avian oocytes, unique organelles of | 471 |
| Bear cubs | 339 |
| growth rate of | 339 |
| under artificial feeding | 344 |
| rates of weight gain | 345 |
| Birds, postnatal growth of | 349 |
| Body weight and surface area of chickens | 229 |
| *Book review* | 127 |
| Bovine achondroplasia | 393 |
| Brachycephalic dwarf cattle | 406 |
| diagnostic anatomical characteristics of | 407 |

Page

Calf spleen extract, effect on spontaneous mouse tumors . . . . . 491
Calvaria,
rectilinear dimensions of . . . . . 53
increment analysis of . . . . . 55
Calvariofacial angles
measurement of . . . . . 59
correlation coefficients of . . . . . 65, 66
statistical analysis of . . . . . 63-73
Calvariofacial distances and angles during childhood . . . . . 47
Calvariofacial dimensions in childhood and adolescence . . . . . 57
Calvariofacial measures . . . . . 67
diagrams of . . . . . 67
Carcinogenic effects of isoniazid . . . . . 368
Carcinogenic effects of hydrazine . . . . . 370
Changes in dry weight of rat organs on experimental diets . . . . . 105
*Citellus undulus* . . . . . 137
adaptive value of developmental patterns . . . . . 137
growth curves for . . . . . 140
Coefficients of growth data for male and female rats . . . . . 81
Constants of tumor growth . . . . . 335-337
Correlation coefficient
of monkey fetus weight . . . . . 4
of pig fetus weight . . . . . 5
*Cristivomer namaycush* . . . . . 286
functional groups of measurements in . . . . . 286-287
Cross-reactivity, elimination by absorption . . . . . 311
Cytotoxic antibody test . . . . . 305, 307
Development, effect of thyroid hormones on . . . . . 143
Developmental growth of *Peromyscus* . . . . . 39
Developmental patterns in *Citellus* . . . . . 137, 139
Dexter bovine mutants . . . . . 393
Dietary fat, age and hepatic alkaline phosphatase in the rat . . . 177, 179
Dietary protein insufficiency . . . . . 463
effect on various organs . . . . . 466
effect on eye lens . . . . . 467
effect on carcass traits . . . . . 468
Diffusion theory of tumor growth . . . . . 161, 168
equations for . . . . . 162-164
Dwarf mutant cattle . . . . . 401
Dynamics of embryonic growth . . . . . 263
Dynamics of tumor growth . . . . . 333
Effect of audiovisual stress on organ and body weights . . . . . 92
Effect of stress on
adrenal ascorbic acid . . . . . 93, 95
serum cholesterol . . . . . 93, 95
total serum protein . . . . . 93, 95
water content . . . . . 95
Effect of tumor haptens on rat carcinoma . . . . . 117
Effect of thyroid hormones on growth and development . . . . . 143
Embryonic growth, dynamics of . . . . . 263
Embryonic growth, time transform . . . . . 269
Emotional and muscular stresses in rats . . . . . 87
effect of age factor on . . . . . 87
Fish fins, amputation level in . . . . . 9
Flexner rat carcinoma, lipid fractions of . . . . . 112
Follicle cells, developmental stages of . . . . . 249, 253
Follicular cell-oocyte interface, fine structure of . . . . . 484
*Gallus domesticus,* body weight and surface area of . . . . . 229
Gerontology, review of recent advances in . . . . . 129

| | Page |
|---|---|
| Glucocorticoid, effect on DNA synthesis | 449 |
| Gompertza equation as applied to postnatal growth | 350 |
| Gompertz growth curves of various embryos | 265, 266 |
| *Gopherus polyphemus* | 24 |
| Growth | |
| analysis of | 264 |
| effect of dietary protein insufficiency on | 463 |
| effect of extracts from adult hydranths on | 421, 423 |
| effect of extracts of primordia on | 424, 425 |
| effect of thyroid hormones on | 143 |
| fetal | 143 |
| of ascites tumor | 453 |
| of porcine lens | 463 |
| of rat hepatic cells following hepatectomy | 281, 282 |
| of rats as affected by high temperature stress | 84 |
| of the mouse ovarian follicle | 239 |
| Growth and development of the little pocket mouse | 187 |
| Growth changes following dietary protein insufficiency | 463-469 |
| Growth constants | 352 |
| interspecific differences among | 353 |
| similarities among | 353, 354 |
| Growth curve, von Bertalanffy | 123 |
| Growth curves of male and female rats | 82, 83 |
| Growth inhibition evoked by tumor lipid fractions | 114-115 |
| Growth pattern of *Cristivomer namaycush* | 285 |
| Growth rate of newborn black bear cubs | 339 |
| Growth response of spleen and liver during graft versus host reaction in the chick embryo | 257 |
| Hemosiderin reaction, demonstration by means of Prussian Blue | 325 |
| Hepatic growth and regeneration in rats | 277 |
| quantitation of | 277 |
| Hereford dwarf cattle | 396 |
| Human cranium, roentgenogram of | 40 |
| Hydrazine, carcinogenic effects of | 370 |
| Hydrazine derivatives | 372 |
| Hypophysectomy | |
| in the Virginia deer | 383 |
| technique of | 384 |
| Hypopituitarism | |
| effect on growth of deer antlers | 386 |
| effect on coat | 386 |
| Immunization after tumor transplantation | 116 |
| Inhibition of growth of spontaneous mammary tumors by means of splenic extract | 492 |
| Interspecies comparison of fetal growth | 1 |
| Iron storage in developing rat spleen | 325 |
| Isoniazid as related to lung tumors in animals | 367 |
| Linear growth | 356 |
| Linear relationship of fetal populations | 2 |
| Liver regeneration following hepatectomy | 282 |
| Liver weight and body weight in male rats | 279, 280 |
| Lizard tails, amputation level in | 9 |
| Lung cancer, human | 377 |
| effect of isoniazid on | 378 |
| Lung carcinogenesis | 375 |
| Lung tumors, animal | 367 |
| effect of isoniazid on | 367 |
| *Macaca mulatta* | 2 |
| Mammalian embryos, volumes of | 268 |

Page

Mammals, postnatal growth of . . . 349
Maturation of the mouse ovum . . . 239
Metalophils, splenic . . . 328
Mineralcorticoid, effect on DNA synthesis . . . 449
Monkey, fetal growth in . . . 1
Mouse epidermal cells, DNA synthesis in . . . 449
Mouse gastric cells, DNA synthesis in . . . 449
Mouse ovary,
  phase contrast study of . . . 239
  electron photography of . . . 442
Mouse tumors, spontaneous . . . 491
  effect of calf spleen extract on . . . 492
Multivariate statistics for males and females of *Cristivomer namaycush* . . . 289, 290
Mycoplasma . . . 121
  isolated from Rous sarcoma virus . . . 191
  morphology of colonies . . . 201
  staining properties . . . 201
  sensitivity to antibiotics . . . 202
  virulence . . . 201
Necrotic volume fraction in solid tumors . . . 169
Nerve regeneration . . . 21
Ontogeny of the cranium in humans . . . 47
Organ weights and water contents of lactating rats . . . 295
Organ weights in rats during lactation . . . 298-300
Organ weights of rats fed purified diets . . . 99
Organelles of avian oocytes . . . 471
*Perognathus longimembris* . . . 187
  behavior of . . . 190
  foot and ear length . . . 195
  general development of . . . 189
  growth and development of . . . 187
  total body and tail length . . . 194
  weight curves . . . 192
*Peromyscus*
  breeding rate of . . . 24
  growth data . . . 40
  litter size . . . 25
  morphological development of . . . 26
  seasonal distribution of births . . . 25
  sex ratio . . . 25
*Peromyscus floridanus*, behavioral development . . . 31
  growth of . . . 23
Pineal gland, mitotic rhythms in . . . 315
  nuclear and nucleolar dimensions in . . . 315
  twenty-four-hour rhythm of mitotic activity . . . 317
Pig, fetal growth in . . . 1
Polarized inhibitory control of regional differentiation during regeneration in *Tubularia* . . . 429
Postnatal development of *Peromyscus floridanus* . . . 23
Postnatal growth curves of birds and mammals . . . 349
Post-surgery immunization with tumor lipid haptens . . . 118-120
Primordial follicle in mouse ovary . . . 243, 244
Primordial yolk granules . . . 485
Principle component analysis and pattern of growth in *Cristivomer namaycush* . . . 285
Proteins, staining for . . . 441
Prussian Blue reaction . . . 325
Purified rat diet, composition of . . . 101

*Page*

Rat,
stress adaptation in . . . 79
Rat spleen, iron content of . . . 325
Rate of growth of solid tumors as a problem of diffusion . . . 157
Rats,
effect of thyroid hormones on . . . 145
Holtzman strain . . . 326
organ weights of . . . 100
organ weights and water contents of . . . 295, 297
post-weaning growth of . . . 79
statistical analysis of . . . 101
statistics of growth under hormone treatment . . . 147
Rectilinear distances in human cranium . . . 51
statistics for . . . 52
Regenerating lizard tails, mean length of . . . 16
Regeneration in *Tubularia* . . . 419
Regeneration rate as affected by age . . . 18
Regeneration in lizard tails . . . 9, 12
Regression of mouse mammary tumors following treatment with calf spleen extract . . . 493
Relative sizes of chick organs in embryos inoculated with adult spleen cells . . . 259
Result of inoculation of chickens with Rous bacterial isolate . . . 205, 207
Reviews of literature (*Oncologia*) . . . 125, 126, 276, 365
Rhythms in pineal mitotic activity . . . 315
Rous bacterial isolate . . . 206
agglutination of . . . 206
vaccination of chickens with . . . 209
Sella, effect of hypophysectomy on . . . 389
Species identification of poikilothermic cells by means of cytotoxic antibody test . . . 305, 309
Spleen, rat . . . 327
red pulp of . . . 327
white pulp nodules . . . 327
Spleen and liver enlargement in embryos inoculated with adult spleen cells . . . 259
Splenic macrophages . . . 329
iron storage by . . . 329
Solid tumors, growth rate of . . . 157
mathematical equations for . . . 160
Starvation, effect on DNA synthesis in mouse cells . . . 449
Stress, effect on circulating eosinophils . . . 90
Stress adaptation in the rat . . . 79
Substances affecting regional differentiation in *Tubularia* . . . 429
methods of separation . . . 430-434
electrophoretic methods . . . 434-439
acid extraction of . . . 440
trypsin treatment of . . . 440
Surface area of male and female chickens . . . 233-235
Thymidine indices in mouse organs following administration of corticoids . . . 450, 451
Transosomes of avian oocytes . . . 472
association with yolk granules . . . 479
location and morphology of . . . 473
fine structure of . . . 475
maturation phenomena . . . 478
Transplanted tumors, effect of tumor lipids on . . . 109
Trends in modern gerontology (Review) . . . 129
